Rasmus Solbjørn Richter Johannsen

Data- and people focused UX/UI Designer and researcher. I seek to understand people, create actionable insights into their needs, challenges, and desires, and create concepts and designs that directly address these.

Portfolio: sunbeardesign.github.io

Education

MSc. Interaction Design

Aalborg University 2021 - 2023
Master thesis: Designed a mobile application to help people reduce their electricity bill through shifting. Created through an iterative participatory design process with 12 participants in collaboration with NRGi
Grade: 10
